Boozhoo!

The wisdom and responsibility of the Ogemuk (Chiefs) who signed the Treaty of 1836 among many things, preserved the usual privileges of occupancy for our People including the ability to hunt, fish and gather so long as the land the activity was being conducted on was not deemed as settled.

For the past 170 years, our People have continued to fight to uphold Treaty Rights our Ogemuk left for us and in 2007, after a long and difficult negotiation process, we were able to enter into another Treaty that is referred to as the 2007 Consent Decree. It is also important to note that when this deal was agreed upon, that our reaffirmed Rights to hunt, fish and gather will never expire.

With that said, we proudly present the fishing regulation supplement.

Have a safe and productive fishing season.
