Possession and Transportation

A legal and current Tribal License and harvest/transport tag is required to take, transport and possess black bear. The tags are only valid in the specified bear management unit. The hunter must immediately fill out the harvest / transport tag and attach it to the lower jaw of the bear.
Lawfully taken black bear may be transported within or outside of the Ceded Territory providing the Tribal member has a valid and current Tribal license in their possession and the carcass has been properly sealed.

The harvest/transport tag must remain attached to the bear for transportation and until harvest seal is attached at a designated registration station.

**Registration and Collection**

*The bear must be registered within three business days of the kill* at a Tribally-certified or Michigan DNR station. Registration is mandatory. Hunters may present the entire carcass or just the hide with claws, head and teeth still attached. The sealed registration tag must be retained until all the meat is consumed or disposed of.

A premolar tooth will be collected when the bear is registered and used to determine the age of the bear and genetic information.
