Councilor Crampton noted that the Tribe seems to be on a positive upswing on every level.

**VI. Concluding Business**

- A. Next Meeting Date(s)- Wednesday, March 15, 2006
- B. Public Comment Period

Pat Ruitter noted that the Boxing Commission is not having a problem with a quorum, but noted that when the boxing matches are happening, the Commission is spread a little thin, and noted that there may be a need for

Nov 29 2006

Councilor Crampton apologized for being late as his daughter passed out in school today and she is being examined as we speak. Crampton does agree with everything that has been said but people need to keep in mind this Council has invested a lot of money in diversifying. Crampton noted everything was stagnant here and nothing was happening. Crampton stated that is why he wants every program to be released. You can't start a business overnight and then it makes money; that just doesn't happen. Castonia asked how long this Boxing has been going on. Crampton noted about eight months.

Councilor Sam asked to take the floor and noted that the Council has agreed that the Boxing Commission report needs to be prepared and be released.

**MOTION TO PREPARE RELEASE OF BOXING  
COMMISSION NUMBERS AND THE HOUSE OF  
FLAVORS, DIVERSITY NETWORK AND MUSCHIGON  
CONSTRUCTION COMPANY; by Koon;**

Councilor Stone noted we are going to have to call a point of order because we will have to add that issue to the agenda because the issue before us is the Boxing Commission report.

*Motion withdrawn.*

Sandra Lewis -I agree. Further, that is your business. Getting appointments anywhere these days with a specialist—one is at the mercy of taking what is available! What I don't understand, is why it wasn't simply announced as a courtesy to you, as absences for others has been. I'm sorry you weren't afforded that courtesy.

Well when you have an oversight body such as council and Five of the nine choose to give free reign to the most ineffective, costly most sued for wrongful termination ogema ever.

You can let it happen or get creative.

Or maybe just maybe, those trying to twist our laws for personal benefit should consider this? Bowing to injustice just to get along is never the answer.

Councilors, I wasn't trying to disrespect you; I just asked that you consider my plea. I also don't like that you are being referred to as 'the four' by your colleagues' and others. I posted your names to bring your attention to my words so you might read them and understand my viewpoint. I've been looking at several posts today-and it pains me to see all of it. I'm not hiding in the shadows, calling names, etc., because frankly, even if I disagree with you, I can still respect your role in our Government.

Shannon Crampton "Most ineffective, costly most sued for wrongful termination ogema ever." Truest statement I've seen in all of this mess.
