March 30, 2022

Health Commissioners and Liaisons;

I wish to thank you for the opportunity to be a part of this commission unfortunately I have come to see that no one attends this commission or do they provide the needed updates for the membership. I have tried what I could to get cooperation that is needed for this commission to work. I thank Brandy Martin for providing her updates on COVID-19 and it's variants, without her we wouldn't be able to inform the members of the public dangers. I disagree with what has happened to this commission and the non-responses that we get from the people who provide medical advice for our people. I do not wish to take money from the Tribe any further for nothing and I regret having to resign but there seems to be no interest in health information or stepping up to the plate to provide it. Thank you.

Regretfully,

A handwritten signature in black ink that reads "Grace A. Hendler". The signature is written in a cursive, flowing style.

Grace A. Hendler
Health Commission Secretary

HEALTH Commissioners and Liaisons

I want to thank you for giving me the opportunity to server on the commission. I really feel we are not able to do our Job Due to lack of cooperation and attends also non reponses I feel that I can't have things way and accept the money I regret to in ~~for~~ but I must resign

Thank you

Roxanna Gibson

April 4th, 2022

Health Commission Meeting

Little River Band: Manistee Michigan

To Whom it May Concern,

Little River Health Center of Muskegon has completed its construction portion of the project. The final walk-through with the construction crew was performed Wednesday March 30th, 2022. The Harvey and Ellis builds are complete pertaining to the construction portion. Patients will be slowly implemented in the Harvey building over the next several weeks. Family Medicine, Foot and Ankle Specialist and Pharmacy will be scheduled and divided throughout the week. New staff and schedule will be light and slow in the begin until able to hire additional staff. There still is a great deal of paperwork and supplies that need to be completed but will slowly start to see patients these next several weeks. Pharmacy too is on schedule with all paperwork completed and still need to follow a schedule per state.

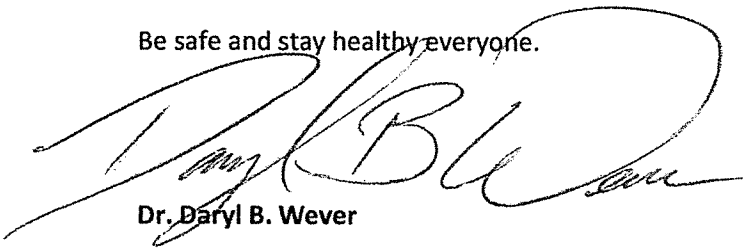

The Ellis Building has been given the authority to allow Behavioral Health staff to move into the bottom south portion of the building. The other portion of the Ellis building is complete and allows administration personnel to be present as well.

Due to short staff and additional location opening, the Health Centers in both Muskegon and Manistee will have yearly Flu and Covid Vaccinations every fall as well.

Its exciting times for the Little River Health Centers, but still a great deal of work is needed until fully implemented without difficulties or slight delays.

Thank you everyone for your patience and support!

Be safe and stay healthy everyone.

A handwritten signature in black ink, appearing to read 'Daryl B. Wever', is written over the printed name below.

Dr. Daryl B. Wever

Director of Health Services and Physician
