Aanii:
I am writing this on June 13th; this coming Saturday, June 16th, I am holding an Informational Meeting in Muskegon. My hopes are that we can provide clear information to the membership on questions that have been asked at the Meet and Greets in April and since then. The meeting is expected to be recorded and available on the Ogema’s website page for those not able to attend.

This past Monday, June 11th, LRBOI hosted the annual meeting with the United States Attorney General’s Office, Western District. US Attorney Andrew Birge gave updates to the group on issues important to the Tribe and other law enforcement agencies within Michigan. As most of you are aware there are multiple concerns including domestic violence, child advocacy, and drug related offenses such as opioid abuses. Coordination among law enforcement agencies is critical to addressing these problems within communities.

Historic Preservation Director, Jay Sam, and I met with officials from Muskegon working on a downtown sculpture project called, “Niikonii Kiina” or “All My Relations”. I will try to keep you updated on this project as we get closer. The sculpture represents the Seven Grandfathers.

The golf course the Tribe recently purchased in Bear Lake is up and running. The management has been placed under the Little River Casino Resort and hopefully we can get some updates as to how it is doing. I did have a chance to look over the property and the upgrades look good.

At the last Council Meet and Greet held in Muskegon on May 19th, there was some confusion about tribal housing, (Aki Maadiziwin) and the housing being built in Muskegon (Odeno).

“Aki Maadiziwin” is housing that has been built for the benefit of tribal members for rent and purchase. It is located in Manistee and we continue to build homes. There are “fair market” houses, “elder” houses and “low income” houses. We also have some houses in Manistee that we purchased to rent to our Tribal members.

“ODENO”, is an Economic Development effort to create revenue. A community of approximately 282 houses are being built over the next 5-6 years to sell for profit to anyone who is looking for a new home in the Fruitport area. I hope this helps. For those of you asking about housing similar to Aki Maadiziwin, for Tribal members in Muskegon and other cities, the hope is that from these profits we may be able to find some property and build in other locations.

School is out and I hope everyone has an enjoyable summer. Until next time...

WHY DID THE POWER KEEP GOING OUT DURING THE POW WOW THIS YEAR?

FROM RECORDS, IT APPEARS THAT WORK TO INSTALL ELECTRICITY AT THE GATHERING GROUNDS STARTED AT LEAST A YEAR AGO BY STEVE PARSONS, PLANNING COORDINATOR ALONG WITH THE LRBOI CONSTRUCTION TASK FORCE, WHICH CONSISTS OF EXECUTIVE BRANCH EMPLOYEES AND THREE TRIBAL COUNCILORS.

ON AUGUST 1, 2017, THE OGEMA SIGNED AUTHORIZATION FOR CONSUMER’S ENERGY TO HAVE EASEMENT TO THE PROPERTY.

ON OCTOBER 11, 2017, TRIBAL COUNCIL APPROVED THAT ITEM BY PASSING RESOLUTION #17-1011-348. THE ELECTRICAL UPGRADE ALSO NEEDED BUREAU OF INDIAN AFFAIRS APPROVAL WHICH WAS RECEIVED SOMETIME IN MAY.

ON JUNE 29, 2018, THE WORK WAS FINISHED BY CONSUMER’S ENERGY TO HAVE EASEMENT TO THE PROPERTY.

For the full post regarding the power at the pow wow please visit the Ogema’s online page: lrboi-nsn.gov

"A Meet and Greet in Muskegon was organized by Ron Pete and Diane Lonn, to give Tribal Citizens a chance to voice questions to the Council. This event was held on May 19, 2018 at St. Michaels in Muskegon. This was a pot luck; we had around 80 individuals present. There was a list of questions the Council created to speak about. Speaker Riley answered most of the questions. When it was time for Citizens to ask questions they had, the Recorder and Speaker closed the meeting. The Citizens were not given a chance to ask their questions. Ron, the Ogema, and I are planning another meeting. This will be called an Informational Meeting and will be in the near future. When this meeting is announced, make sure you have questions prepared to ask."

Diane A. Lonn
Tribal Councilor

</table>

It is hereby ordered, on behalf of the unanimous Court of Appeals, signed by the Chief Justice Hon. Melissa L. Pope Case #1 7182AP. The Court, therefore, orders the relief requested of removing Mr. Champagne from the ballot, along with the votes received, with these Tribal Council seats to be filled by the remaining candidates who meet all Constitutional requirements and have received the highest number of votes respectively.

Therefore, the following candidates have been elected to the position below:

Office of Tribal Council Outlying

Shannon Paul Crampton
Dave Corey
**GOVERNMENT CENTER NEWS & INFORMATION**

**Notice Regarding Unclaimed Per Capita Payments**
As outlined in Regulation #R100-11; RAP-01, Chapter 2, Unclaimed Per Capita Payments, this is official notification that the individuals listed below have unclaimed per capita payments available. These individuals have until December 31, 2018, to claim these payments. Should any payments remain unclaimed after December 31, 2018, the funds will be reverted to the Tribe as specified in Regulation #R100-11; RAP-01, Chapter 2.

Badger, Timothy J.  
Bontrager, Robert A.  
Frees, Andrew E.  
Kequom, Anthony Jr.  
Nichols-Olivarri, Sabrina  
Nichols-Olivarri, Samantha  
Pego, Eric  
Ricker, Trinity  
Robinson Jr., Thomas L.  
Sprague, Janina A.  
Studey, Leslie C.  
Taylor, Allan  
Tyler, Jerry S.  
Wabindato, Pauline  
Wilson, David A.

Please take the time to review the list and get the word out about these unclaimed payments. Any help you can provide to aid us in getting these payments to their rightful owners would be appreciated. Contact the Little River Band of Ottawa Indians Enrollment Department at (888) 723-8288, if you can claim outstanding payments, provide assistance in settling payment(s) or have any questions.

**REQUEST FOR PROPOSAL**
The Little River Band of Ottawa Indians is seeking proposals for site preparation and the construction of a 30’x40’ Pole Barn.

Requests for bid packets shall be directed to purchasing@lrboi-nsn.gov or packets can be picked up in person at:

Little River Band of Ottawa Indians  
Attn: Purchasing Office  
2608 Government Center Drive  
Manistee, MI 49660

**PROPOSAL DUE DATE:** August 2nd, 2018

**WANTED GUARDIANS FOR TRIBAL MEMBERS**
There are tribal members who do not have any family and are in need of a guardian willing to take on the responsibility for them. Are you willing to help your fellow tribal members?

A guardian is given the power and responsibility to make certain decisions about the care of another individual. This can include consenting to medical treatment, determining where the individual lives, handling the individual’s income and property, and arranging for appropriate services.

If you are interested or have questions please contact Mary K. Witkop, Members Legal Assistance Attorney 231-398-2234

**Food Distribution Program**
Ken Lahaye 231.398.6715  
Melanie Ceplina 231.398.6716

Hours: M-F 7:30A – 4:00P  
Lunch: 12:00P - 12:30P  
2700 Orchard Highway  
Manistee, MI 49660

The Food Distribution Program serves 13 counties: Benzie, Grand Traverse, Lake Leelanau, Manistee, Mason, Mecosta, Muskegon, Newaygo, Oceana, Osceola, Ottawa, Wexford.

Food Distribution Program (FDPIR) was created by Congress in 1977 Food Stamp Act as an alternative to the Food Stamp Program for Indian Reservations. The program offers commodities to low income Native American households. No household may participate in both the Commodity Food Program and Snap Program, but eligible households can switch from one program to the other at the end of each month. Eligibility and participation for FDPIR are based on application and certification requiring tribal status, income and resources qualification, in determining who is eligible for the program. We are federally funded by the USDA and they set the regulations and guidelines for the Food Distribution Program.

Enrollment Department

The Enrollment Department would like to remind Tribal Members that Direct Deposit is available for your PerCap payments. This will ensure that the funds will be deposited on the day the payment is made. For a direct deposit form to be valid your address must be up to date with the Enrollment Department. Please make sure your routing/account numbers are correct with your financial institution before submitting a form. Remember, this form has to be notarized and must be submitted 30 days before the payment date. If you do not maintain a current mailing and physical address with the Enrollment Department the direct deposit will be cancelled.

Every Tribal Member should make sure that their Bereavement Beneficiary forms and PerCap Beneficiary forms are up to date. If you have been recently married or divorced don’t forget to update your beneficiary form. Please call the Enrollment Department if you would like to check who you have listed as your beneficiaries. The forms designate who you want the $7500 Bereavement Benefit and last PerCap payment to be paid to. Both of these form have to be notarized. The Bereavement Benefit is always paid to the funeral home first and any remaining balance would then be paid to the Beneficiary. If there is no form on file the distribution of funds will be determined by the Tribal Court.

We have numerous Tribal Members who do not have a current address on file; listed below are Tribal Members who have undeliverable addresses. Please contact the Enrollment Department to update your address or if you know where one of the Members listed below are currently living. Remember the address change forms have to be notarized.

- Edward Joseph Adamczak
- Beau J. Bailey

It has come to our attention that we have some phone numbers on file that have been disconnected or is no longer the Tribal Member’s number. A lot of Members have disconnected their land line and have gone to only using cell phones. If you have a new phone number please contact our department so we can update it. We also maintain e-mail addresses on file, so if you would like us to have your current e-mail address please let us know.

All of our forms are on the LRBOI Website https://lrboi-nsn.gov in order to find us on the website you would need to click on the Government tab and then click on the Enrollment Department. We can also mail, e-mail or fax any of the forms to you.

P.O. Box 417
Manistee, MI 49660
Office hours are Monday through Friday 7am-5pm.

**The Working World**

**How Well Did You Begin and End the Interview?**
Psychological studies have found that individuals remember what comes first and what comes last but often forget the middle part. This is known as the primary-recency effect, and it’s true of job interviews as well. An employer with several interviews will generally remember the first impression and last impression of each candidate. Thus, even if you struggle with some questions in the middle, be sure you start and end strong. -Farr, Michael, *Getting the Job You Really Want*, (Sixth Edition)

Are you looking to make a difference?
Do you have ideas or suggestions on how to improve the work the EDC does?
The EDC is looking for EDC Advisory Board Members, on a voluntary basis (no compensation), to meet monthly to discuss current things going on with the EDC and to voice questions, concerns, and ideas. This is a great opportunity to get more involved and to be a part of something important to the Tribe’s financial future. To show interest in becoming a member of the EDC Advisory Board, please send a resume and letter of interest to Crystal Newman  P: 231.398.6840

Job Opportunities:
Assistant Director – E.D.C.

This position will work directly with and assist the management team/Board with creating business strategies to facilitate company growth in Real Estate Development and Management, Protein Formulations, and Nutraceuticals. This person will also help to identify and develop strategic relationships with partners or potential clients via emails, phone calls, and meetings. They will consult with management team/Board in terms of compliance and/or legal issues, work with management team to ensure alignment of company goals via meetings and brainstorming sessions, evaluate appropriate information to forecast the return on future business transactions, design and determine terms of business agreements, contracts, and leases, ensure that project and company milestones/goals/budgets are met and adhered to, and corroborate with and assist management team with high-level projects and activities.

Basic Qualifications
Bachelor’s degree and a minimum of five years of relevant business, law, Human Resources, or finance experience. A combination of all is highly preferred.

Intermediate knowledge of Microsoft Office Suite (especially Excel), the Internet, Outlook, and computers in general, as well as the ability to communicate effectively within a team environment. Must be a people person as you will be responsible for creating and maintaining relationships with a variety of professionals.

Must be versatile, a go-getter, able to think outside the box, and be sensitive to cultural differences. Time management and an entrepreneurial mindset are key.

Must have the ability to maintain confidentiality.
Must be able to travel if necessary.
Must have the ability to handle multiple projects at once, and be organized/detail-oriented.

DARLING PATRICIA (TRISH) SNYDER

We are sad to announce that Trish Snyder, who was employed for over 15 years, for Little River Band of Ottawa Indians has passed away. Trish was born March 26, 1953 to Donald Schultz and Grace (Koon) Schultz. She had 9 brothers and sisters. Donna and Donald Schultz, Jr. have passed away. Surviving siblings are David Schultz, Diane Lonn, Dan Schultz, Mary Thomas, Bill Willis and Paul Willis. She is survived by one daughter, Paula Roeder. The love of her life was her husband, Michael Snyder.

She was a character and I can truly say this as I was her older sister. Her Pastor, which was her brother Bill Willis said how she had found God and was truly a kind and wonderful person. I was trying not to chuckle as I reminisced about how she was such a stinker growing up. She was forever getting into trouble. Just a few examples, crawling out the window when Mom said we could not go anywhere or the time she and my brother, Dan crawled up a tree branch over the kitchen roof, and Dan fell off and went through the roof. Of course, sometimes we all got it when she pulled these shenanigans. This is how I want to remember her. She had so much fun in her life. Yet, I saw how compassionate she was with our Tribal people that were ill. She picked them up and transported them to doctors’ appointments or other medical appointments. I know in my heart she is in heaven, watching over all of us. I will miss her, but memories are good. Diane A. Lonn

I give you this, one thought to keep:
I am with you still, I do not sleep.
I am a thousand winds that blow,
I am the diamond glints on snow,
I am the sunlight on the ripened grain,
I am the gentle autumn rain.
When you awaken in the morning’s hush,
I am the swift uplifting rush…
of quiet birds in circled flight.
I am the soft stars that shine at night.
Do not think of me as gone—
I am with you still, in each new dawn.

adapted by person(s) unknown from the original poem Do not Stand at My Grave and Weep, generally attributed to Mary Frye, 1932.

Leonard Rittenhouse was nominated as a Hometown Hero and featured on the LRBOI parade float this past 4th of July. Pictured (center) with his family who joined him for this 4th of July Celebration.

Consumer Confidence Report
Utility Department-Little River Band of Ottawa Indians
2018

LRB Water System

Is my water safe?
The Little River Band Utility Department would like to report that last year, as in years past, your tap water met all U.S. Environmental Protection Agency (EPA) and state drinking water health standards. The LRB Utility Department vigilantly safeguards its water supplies and are proud to report to you that we have not violated a maximum contaminant level. The Source Water Protection Plan has been completed and is available for review the plan will be implemented to protect the areas around our (well house) source water from inadvertent contamination.

Our Laboratory was recertified by the EPA for testing of Total Coli-form / E-coli of which we sample 10 locations per month.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Our water system is classified as a “Community System” based on the population served which has been established in accordance with the U.S. EPA guidelines which is 8,189 customers served daily.

Do I need to take special precautions?
Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Water Drinking Hotline (800-426-4791).

Where does my water come from?
The Water Distribution is supplied by two source wells located in Aki Madiziwiin with a 250,000 gallon spheroid storage tower, adjacent to the Justice Center, on M-22. These wells can supply over 700,000 gallons of water a day! An estimated average daily use is currently 83,000 gallons per day. The distribution system consists of PVC, HDPE and Ductile Iron piping in various sizes. The level of water in the storage tower, which supplies the needed water pressure to your household or business, is controlled by radio telemetry. The Water Storage Tower is monitored by our staff for needed level changes due to seasonal, fire related emergencies and/or maintenance concerns.

Source water assessment and its availability
A source water assessment was completed by the Inter-Tribal Council of Michigan Environmental Services Division, 3601 Mackinaw Trail, Sault Ste. Marie, MI in October of 2002. An updated source water protection plan has been completed by the I.T.C. and the LRB Natural Resources Department as previously mentioned and is available for review. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency’s (EPA) Safe Drinking Water Hotline (800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Microbial contaminants, such as viruses and bacteria, that may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife. Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming. Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff and residential uses. Organic Chemical Contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff and septic systems. Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities. In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. The Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water which must provide the same protection for the public health.

Source Water Protection Tips
Protection of drinking water is everyone’s responsibility. You can help protect your community’s drinking water source in several ways:

- Eliminate excess use of lawn and garden fertilizers and pesticides - they contain hazardous chemicals that can reach your drinking water source.
- Pick up after your pets.
- If you have your own septic system, properly maintain your system to reduce leaching to water sources or consider connecting to a public water system.
- Dispose of chemicals properly; take used motor oil to a recycling center.
- Volunteer in your community. Find a watershed or wellhead protection organization in your community and volunteer to help. If there are no active groups, consider starting one. Use EPA’s Adopt Your Watershed to locate groups in your community, or visit the Watershed Information Network’s How to Start a Watershed Team.
- Organize a storm drain stenciling project with your local government or water supplier. Stencil a message next to the street drain reminding people “Dump No Waste - Drains to River” or “Protect Your Water.” Produce and distribute a flyer for households to remind residents that storm drains dump directly into your local water body.
Water Conservation Tips
Did you know that the average U.S. household uses approximately 400 gallons of water per day or 100 gallons per person per day? Luckily, there are many low-cost and no-cost ways to conserve water. Small changes can make a big difference - try one today and soon it will become second nature.

- Take short showers - a 5 minute shower uses 4 to 5 gallons of water compared to up to 50 gallons for a bath.
- Shut off water while brushing your teeth, washing your hair and shaving and save up to 500 gallons a month.
- Use a water-efficient showerhead. They’re inexpensive, easy to install, and can save you up to 750 gallons a month.
- Run your clothes washer and dishwasher only when they are full. You can save up to 1,000 gallons a month.
- Water plants only when necessary.
- Fix leaky toilets and faucets. Faucet washers are inexpensive and take only a few minutes to replace. To check your toilet for a leak, place a few drops of food coloring in the tank and wait. If it seeps into the toilet bowl without flushing, you have a leak. Fixing it or replacing it with a new, more efficient model can save up to 1,000 gallons a month.
- Adjust sprinklers so only your lawn is watered. Apply water only as fast as the soil can absorb it and during the cooler parts of the day to reduce evaporation.

Water Quality Data Table

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of contaminants in water provided by public water systems. The table below lists all of the drinking water contaminants that we detected during the calendar year of this report. Although many more contaminants were tested, only those substances listed below were found in your water. All sources of drinking water contain some naturally occurring contaminants. At low levels, these substances are generally not harmful in our drinking water. Removing all contaminants would be extremely expensive, and in most cases, would not provide increased protection of public health. A few naturally occurring minerals may actually improve the taste of drinking water and have nutritional value at low levels. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA or the State requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not vary significantly from year to year, or the system is not considered vulnerable to this type of contamination. As such, some of our data, though representative, may be more than one year old. In this table you will find terms and abbreviations that might not be familiar to you. To help you better understand these terms, we have provided the definitions below the table.

### Disinfectants & Disinfection By-Products
(There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants)

<table>

Additional Information for Lead
If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Little River Band PWS is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.

Undetected Contaminants
The following contaminants were monitored for, but not detected, in your water.

<table>
<thead>
<tr>
<th>Contaminants</th>
<th>MCLG or MRDLG</th>
<th>MCL, TT, or MRDL</th>
<th>Your Water</th>
<th>Violation</th>
<th>Typical Source</th>

Important Drinking Water Definitions

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCLG</td>
<td>MCLG: Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.</td>
</tr>
<tr>
<td>MCL</td>
<td>MCL: Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.</td>
</tr>
<tr>
<td>TT</td>
<td>TT: Treatment Technique: A required process intended to reduce the level of a contaminant in drinking water.</td>
</tr>
<tr>
<td>AL</td>
<td>AL: Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.</td>
</tr>
</tbody>
</table>

Variances and Exemptions

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>MRDLG</td>
<td>MRDLG: Maximum residual disinfection level goal. The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.</td>
</tr>
<tr>
<td>MRDL</td>
<td>MRDL: Maximum residual disinfectant level. The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.</td>
</tr>
<tr>
<td>MNR</td>
<td>MNR: Monitored Not Regulated</td>
</tr>
<tr>
<td>MPL</td>
<td>MPL: State Assigned Maximum Permissible Level</td>
</tr>

Semester Class Schedule 2018
Classes are Fridays 10:30AM till 12PM
Summer– June 22– September 7
Government Center, Manistee MI

MANISTEE COUNTY SCRAP TIRE DROP-OFF EVENTS
SATURDAY, SEPTEMBER 22, 2018 & SATURDAY, OCTOBER 13, 2018
10:00AM – 2:00PM
Manistee County Fairgrounds
7587 1st Street, Onekama

MANISTEE COUNTY SCRAP TIRE DROP-OFF EVENTS
SATURDAY, SEPTEMBER 22, 2018 & SATURDAY, OCTOBER 13, 2018
10:00AM – 2:00PM
Manistee County Fairgrounds
7587 1st Street, Onekama
