Engaging Interns:

Internships are for the benefit of the student. Interns are not to be used in place of employees. Interns will be placed in entry-level pre-professional experiences that are designed to enhance and build their skills. Generally, interns will observe the workplace, discuss with the supervisor such matters as why work is done in a certain way and suggest improvements based on their course work.

Internships are not designed to be an advantage to LRBOI and Interns are not entitled to a job at the conclusion of the internship. The purpose of the internship is to provide a learning experience. It is expected that the supervisory time required will outweigh any work performed by an intern.

Interns usually perform tasks under the watchful eye of a supervisor/employee. If an intern deals with clients or customers without a supervisor present—as a practice teacher will handle a class alone—they review proposed activities or decisions either beforehand or afterward with an employee/supervisor.

Interns will be required to acknowledge in writing that they are not an LRBOI employee, are not entitled to employee benefits, are not entitled to workers compensation, and will comply with all applicable company policies (e.g., confidentiality, illegal drugs, intoxication, safety, etc.).

Any forms required by a government agency will be completed at the beginning of the internship.

The Intern will be provided with a current detailed job description of work tasks to be performed prior to any student placement.
